An
Invitation
TO OUR
GORGEOUS
Chrysanthemum
DISPLAY

YOU and your gardening friends are invited to see the finest display of garden Chrysanthemums in existence—acres of the new Korean Hybrids developed first by us. Many new varieties and types as well as the older garden favorites will present a panorama of color that will thrill you—long to be remembered: Seventy-five new varieties, some of which will be named and offered in our 1937 Catalog. Thousands of cross-bred seedlings flowering for the first time this season. Also over 100 old-fashioned varieties secured from garden-loving friends in almost every section of the United States.

All these in addition to our new novelty display of over 50,000 plants.

October 10 Until Killing Frost

BRISTOL NURSERIES, Inc.
Bristol, Connecticut

1/2 mile north of Route 6 alternate between Bristol and Terryville. Look for road signs on Route 6A

NARCISSI OR DAFFODILS

Limited space does not permit us to list the excellent varieties of Daffodils and Poetaz Narcissi which we can supply in a fine assortment of colors. However, we do offer here a splendid mixture for naturalizing. Double-nose bulbs, 65 cts. per doz., \$5 per 100, \$35 per 1000.

NARCISSI FOR POT-CULTURE

Grand Soleil d'Or. Clear yellow with orange cup. Double-nose bulbs, \$1.50 per doz., \$10 per 100.
Paper-White Grandiflora. Pure white. 60 cts. per doz., \$4.50 per 100, \$40 per 1000.

ORCHID NARCISSI

Thalia. For a lovely display, plant this little beauty in groups. Each stem carries from three to four white flowers of exquisite purity, resembling in effect the orchid when cut. Delightfully fragrant. \$3 per doz., \$20 per 100.

Bulb-Culture

To get results in bulb-culture, you should enrich the soil, particularly where annuals have been grown the previous summer or among the perennials where the soil is apt to be impoverished. Well-rotted manure is the best fertilizer, but it must be thoroughly decomposed and as friable, or easily handled, as soil. It should be mixed with the soil to a depth of from 9 to 12 inches. As a substitute, pure bonemeal, finely ground, can be used, and leaf-mold should be added if the ground is of a heavy texture. A hard-baked soil will not grow good bulbs. A light mulch of leaves or straw should be provided before heavy frosts.

A FEW NEW OR CHOICE PERENNIALS

- ANCHUSA** *myosotidiflora*. *Blue Forget-me-not*. 25 cts. each, \$2.50 per doz.

Please refer to our General Catalog for a complete list of Perennials, Roses, Shrubs, Trees and Vines. A copy will gladly be mailed on request. 1937 Catalog will be issued in February.

THE MADONNA LILY (*Lilium candidum*)

Loveliest Lily of all, and most satisfactory for the garden. Bulbs arrive from France in early September and should be planted at once to assure perfect blossoms for the coming year; hence early ordering is desirable.

We offer only the thick-petaled type, imported directly from northern France. Delightfully fragrant, snow-white flowers, varying from 5 to 20 on a rigid stem, appear about June 20—delphinium-time—and are seen at their perfection if planted among the delphiniums. Good, ordinary, well-drained garden soil is sufficient. Plant the bulbs not more than 4 to 5 inches deep, but plant as early as possible. Strong growth must be made before winter to produce fine flowers.

	Doz.	100
Large-flowering size	\$3 50	\$25 00
Extra-large size	4 00	30 00
